DETAILED ACTION

1. This Office Action is the answer to the communication received on 10/25/99 (the petition to make special paper).
2. Claims 1-68 are pending in this application. Claim 6 has been canceled.

Drawings

3. This application has been filed with informal drawings which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

The following rejections are based on the examiner's best interpretation of the claims.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Because the claims in a pending application should be given their broadest reasonable interpretation; claims 1-68 are rejected on 35 U.S.C. 102(b) because the article published on May 19, 1998, about "GoTo.com announces first round of financing, totaling more than \$6 million, led by Draper Fisher Jurvetson", indicates possession of that invention. It sets forth the mode contemplated by the inventor of carrying out his invention in "Bidding for higher placement offers big benefit to advertisers

09/322,677
Art Unit 2764

... Any advertiser can increase a bid for a listing in order to obtain a higher ranking". Therefore, this article was published before the application date of the invention (May 28, 1999), in another word, the invention was described in a printed publication in this country, more than one year prior to the date of application for patent in the United States.

Conclusion

5. Claims 1-68 are rejected.
6. These references are considered pertinent to applicant's disclosure.
